Other particular requirements mentioned in the United World Wrestling document specific to each competition must also be considered.

Article 2 - Basic regulations

Every Championship or international competition is organised under the obligatory control of the United World Wrestling and must be held in accordance with the international technical Rules of Wrestling.

The terms and conditions of organisation are laid down:

a. According to the agreements and undertakings entered into between the participating countries, in the case of international meets or tournaments.

b. According to the special provisions set out below in the case of the Olympic Games, World Championships and Cups, Continental Championships, Cups and Games and Regional Games and Regional Championships, Ranking Series.

Article 3 - Participants

All wrestlers participating in a United World Wrestling international competition (championship or tournament) must have a United World Wrestling licence card valid for the current year.

Only duly affiliated countries or recognized associated members or associations having an agreement with United World Wrestling, are entitled to participate in contests of any nature organised under the supervision of the United World Wrestling, provided that they have discharged all their obligations towards the United World Wrestling laid down in the Financial Regulations, whilst also meeting the conditions in the United World Wrestling Constitution.
Article 4 - United World Wrestling supervision procedure

The United World Wrestling supervision is carried out by adopting the various procedures set out below:

a. Establishment of the international calendar and supervision of its application. This calendar shall indicate, for the following year, the official and friendly competitions resulting on the one hand from the obligations of certain Federations towards the United World Wrestling, and on the other hand from arrangements and agreements entered into between National Federations, which must be confirmed in writing to the United World Wrestling Secretariat, by 1st November of the previous year, by the organising Federation.

All international competitions with more than 3 participating countries must be entered in the calendar.

b. Notification, given to the United World Wrestling Secretariat by the organisers, three months in advance, of the specific information and schedule of the competition, and issue in the following week of the records and results of the said contests, for approval.

c. Appointing of international judges and referees under the conditions set out in the Regulations of the international officiating body.

d. Appointing of United World Wrestling officials entrusted, according to the nature of the events, with the tasks of:
   - checking whether all the measures required for good organisation have been taken
   - performing the specific or precise technical functions
   - providing the organisers with aid and assistance

e. Implementation, where appropriate, of the provisions of the Disciplinary and Financial Regulations.

Article 5 - Responsibilities

The National Federation of the organising country shall bear all the costs of practical and financial organisation of the contests and shall remain solely responsible to the United World Wrestling, which shall assume no financial obligation in respect of the said contests.

Moreover, the United World Wrestling, like any National Federation organising a wrestling competition, whether official or friendly, shall assume absolutely no liability in the event of a purely sporting accident involving any participant, and each leader must be insured for this eventuality, by its own organisation in its own country, with cover for all risks that may be incurred abroad during travel and participation.

It is however pointed out that wrestlers (men and women) of all age group, who have their license cards, valid for the current year, are insured by United World Wrestling, according to the conditions mentioned in the certificate sent each year to all National Federations.

In addition, the United World Wrestling declines all responsibility in case of injury, in case of riot or any disaster which occurred during the competition. Consequently, the organiser must send, attached to his bidding file, a certificate from the Insurance Company which is covering the event, as well as a copy of the insurance contract covering the civil liability of the organizer.

After examination of the provisions stipulated in the contract, the United World Wrestling reserves the right to require the modification of the guarantees offered by this insurance contract. In the event of a refusal from the organising Federation to satisfy these requirements or if it is impossible, United World Wrestling might even withdraw the organisation of this event to the National Federation.
Article 6 - Guarantees required from the organising country

Any official wrestling event held under United World Wrestling supervision implies on the part of the organising National Federation:

This information must be supplied at least one month before the agreed date of the event.
However, the obligations undertaken by all the parties should be strictly adhered to in all aspects so that the best possible terms of friendship can be established, and so that the sport of wrestling can be promoted in the desired manner.

The United World Wrestling must be notified of any difficulties or disputes which may arise between the organisers and participants by the organizing National Federation, the assigned referee or the team leader and may, if necessary, give rise to the application of the Disciplinary Regulations.

The participating Federations must:

a. Enter their final (nominative) entries in Athena System one month before the competition. These entries have to be made several days in advance to let some time to United World Wrestling to confirm the passport copies, pictures of the participants (please refer to the concerned circular about Athena). The people who are registered on Athena will be the one who will travel to the competition. In other words, the substitute who didn’t travel to the competition don’t have to be entered in Athena.

b. **Between 1 month and 3 days before the start of the event**, a substitution can be done if a wrestler is injured or out of form. The concerned athlete will have to be changed in the system. His weight category could also be modified but if his arrival and departure dates have to change, only the organizer will have the responsibility to approve it.

e. NB: The United World Wrestling will organize and ensure itself the competition secretariat and will take care of the whole entry process (entries for World and Continental Championships, World and Continental Cups).

If the Athena System is not used during an event, the participants will have to submit all this information to the organizer in the same timeline. The concerned Organizers can request preliminary entries two months before, if they want it.

**Article 27 - Participation**

All National Federation affiliated to United World Wrestling can participate in a Championship as long as they have fulfilled all their financial obligations to the United World Wrestling according to the Constitution and Regulations. The same applies to the Organizing Committee for accreditation rights.

Each National Federation can enter a maximum of one wrestler per weight category.

Each competitor must be of the appropriate age for the competition according to the Wrestling Rules and have a United World Wrestling licence book validated for the current year.

Within each delegation, a maximum number of people is set for each role. You will find these numbers in the Article “National Delegation”.

In order to participate in a (cadet, junior and senior) World Championship, a National Federation must obligatorily participate in the Continental Championship of the same age group, with at least the same number of participants (per style) than the Federation will enter in the World Championship. In other words, a National Federation cannot enter more wrestlers (per style) than the number entered in the Continental Championship of the same age group. However, a National Federation can enter less athletes (per style) in the World Championship than the number entered in the Continental Championship of the same age group.

An exception will be done for the National Wrestling Federation that organize a World Championship. She will be allowed to enter a complete team even if she didn’t participate with a complete team in the Continental Championships of the same age group.

The participations’ quotas for the (senior & junior) World Cups and Continental Cups are specified in their own Regulations.

For the senior Team World Cup, each team is authorized to include one replacing wrestler per weight category, consequently 10 “replacing wrestlers” (men or women) are authorized for each team (one per weight category). The transport and accommodation costs for replacing wrestlers must be borne by their national federation.

For the junior Team World Cup, each team is authorized to include one replacing wrestler per weight category, consequently 10 “replacing wrestlers” (men or women) are authorized for each team (one per weight category).

The fact that Article 4 of the International Wrestling Rules allows a competitor to opt for the next higher category than that in which he was entered (except for heavyweights) cannot be constructed as allowing two wrestlers of the same nationality to be entered in the same category.
Any country entering more than three contestants must necessarily provide a qualified international judge/referee - if it has one - in accordance with the conditions set out in the Regulations of the International Officiating Body, and Article 28 of these Regulations.

**Article 28 - National delegation**

The officials accompanying a national delegation can’t be higher than the maximum numbers mentioned below:

- **Athletes**: 3 athletes per weight category
- **Team Leader**: 1 team leader per style
- **Coaches**: 15 coaches per style
- **Medical Staff**: 3 people (doctor, physio...) per style
- **NF President**: 1 person
- **NF Secretary General**: 1 person
- **NF Officials**: 5 people
- **NF Video Analyst**: 1 person per style
- **NF Media**: 2 people

The number of referees mentioned above is one as a **minimum**. The participating Federations can present three referees, if they are qualified and of the authorized category, per mat, for Continental Championships and only one per mat for World Championships, to be selected among the qualified referees mentioned in the list issued by United World Wrestling (UWW).

All the referees who are authorized to work will be accredited with the same conditions as the participants. The organizer will obligatorily require payment of the participation fee from each delegation for a minimum stay of 4 days per person.

All the referees authorized to work will be always regarded at the same conditions as the wrestlers. Depending of the level of the competition, the referees could be also selected to participate.

Any National Federation that does not conform to the above schedule regarding the number of judges/referees is liable to pay the fee laid down in the Financial Regulations, provided that it has judges/referees in the category concerned who have been qualified.

If a country participates in a competition with 1, 2 or 3 wrestlers, it does not have to bring a referee with its team. However, a participating country may bring one referee per mat (that is maximum three referees) providing he is from the required category and qualified, except otherwise stipulated by United World Wrestling.

Any person who is a member of the national delegation, over and above the maximum number established in the above table, shall remain under the full responsibility of his/her Federation, either subject to a special tariff established by the organiser, for board and lodging, or under other conditions determined by the Federation. NO accreditation will be given to people from outside of the delegation.
Article 29 - Costs

Unless otherwise stipulated by the organiser, the participating Federations are obliged to bear and settle the costs incurred by all the members of their delegation for board and lodging extending beyond the official duration.

Article 30 - Organisation fees payable to the United World Wrestling

The fees payable to the United World Wrestling by the organisers of international competitions are those provided by the Financial Regulations and the Requirements for the Organization of Championships approved by the United World Wrestling Congress.

- The National Federation organizing a United World Wrestling World Championship every even year and the National Federation of the country organising the Olympic Games must respectively provide the material means for the smooth running of the Congress (conference room, simultaneous translation, closing banquet offered by the organiser to the delegates, etc.) and bear all the associated costs. The United World Wrestling Congress takes place every two years.

Article 31 - Taking charge of the participants

- Every organising National Federation is obliged to provide board and lodging for all members of the participating official delegations, wrestlers and officials specified in the table in Article 28 and this 48 hours before commencement of the contests, during the contests and 24 hours after the end of the contests. Whatever the circumstances, in order to guarantee the organiser the costs he may incur, the accommodation fee shall be payable in all cases for a minimum of four days and will be calculated per night.

- The World or Continental Championship are including the three wrestling styles, the participating wrestlers, as well as the officials for each style, must be regarded as belonging to the same team and this for the whole duration of the Championship.

- The organiser must take all necessary measures to provide the participants with proper accommodation and suitable food, according to the hygiene and diet rules (5000 calories / day). For this purpose the menus provided shall be submitted for United World Wrestling’s approval and checked each day by the delegated United World Wrestling doctor.

- The wrestlers (men and women) will be accommodated in an international class hotel, in rooms for 2 persons maximum, with full sanitary, at a maximum price accepted by United World Wrestling between CHF 130.- and CHF 180.- per person and per day (considering the number of overnight stay).

- For cadets, accommodation in rooms for 3 to 4 persons maximum, with full sanitary, is acceptable. However, the participation fee must be reduced in agreement with United World Wrestling.

It is permissible for any organiser to bear other costs incurred by the participants, in which case he must inform the United World Wrestling of this.

NB: The United World Wrestling reserves the right to modify the fee and the system used for board and lodging of the participants, prior to the assignment of the Championship.

In addition, an entry fee of CHF 100.- per participating wrestler (man or woman) for senior, junior, cadet World Championships, senior and Junior World Cups and senior Continental Championships must be paid to United World Wrestling through the entries on Athena.
Article 32 - Taking charge of the President, United World Wrestling Delegates and United World Wrestling Officials
