BUL	National Sports Academy "Vassil Levski" (Sofia)	Full degree Bachelor	A degree diploma	"Sport" with qualification "Wrestling coach"	The program is offered to individuals who have completed secondary education and are able to prove their experience and skills in Wrestling through practical examination or on the basis of sporting achievements. The program is structured around compulsory, elective and facultative courses. Compulsory courses include general theoretical courses grouped in the following blocks – medical and biological knowledge, pedagogical knowledge, social sciences and psychology, foreign languages, scientific and research principles, sports-pedagogical improvement, courses associated with the narrow speciality (wrestling) - theory and methodology of sports training, basic sports disciplines, sports management, practical courses (mountain, water and winter sports), practical training (wrestling). The elective part of the program includes theory and practice closely linked to wrestling aspects. Facultative courses give students the opportunity to specify their professional qualification in a personal way according to their interests and career prospects.	Foreign students are accepted both for the full study period (diploma) and for a period of studies (semester / year), with an individually designed program. In the latter case, the training is certified by a transcript of records. Foreign students are also admitted under contract with another higher education institution	The program is available in Bulgarian and English. For courses and studies in EN the applicant must demonstrate that he/she meets the general requirement for at least B1 level through internationally recognized tests	4 years or 240 credit points ETC	3200 EUR per year - instruction in BG 4000 EUR per year - instruction in EN	There is no limit to the number of students to be admitted. Admission depends on the personal capacity to meet the general requirements
		Full degree Master	A degree diploma	"High performance sport" with specialisation in Wrestling	The program is designed for students who have been awarded a Bachelor's degree from an internationally recognised university in Sport or PE. In this case the applicants are not required to pass through any examinations. Applicants with a degree in a speciality other than Sport or PE have to follow special courses in an adaptive period of 60 ECTS credit points before the start of the Master studies. The Master's program covers general theoretical modules - specialized sports knowledge, medical-biological knowledge, sports psychology, scientific and research methods, foreign language, elective modules and sport specialisation (wrestling) in theory and practice.	Foreign students are accepted both for the full study period (diploma) and for a period of studies (semester), with an individually designed program (a transcript of records)	The courses are offered in BG and EN. To be eligible for Master's level courses taught in English, the applicants must be able to demonstrate proficiency in English by taking an internationally recognised test	1 years or 60 credit points ETC	3200 EUR per year - instruction in BG 4000 EUR per year - instruction in EN	There is no limit to the number of students to be admitted. All international applicants who meet the general entry requirements are considered eligible
		Full degree Doctorate	A PhD diploma	Doctoral studies in the broad area of wrestling issues are possible in the following accredited programs: Theory and methodology of sports sciences; Sports psychology; PE in school system; Kinesotherapy	A key entry requirement is a successfully completed Master degree (or equivalent cycle of education). All Doctoral programs include general theoretical knowledge related to research work as well as modules linked specifically to the dissertation topic. The educational part ends with a written examination. The second part of the training is devoted entirely to research work and its scientific presentation in a dissertation work.	Foreign PhD students are accepted to doctoral programs on the basis of the diploma recognition results	Doctoral studies may be conducted in BG or EN. International applicants must present evidence of competency to pursue studies in the English language	Full-time Doctoral Programs at the NSA normally take three years to complete. Part-time training usually lasts for 4 years.	For EU nationals: 2000 EUR per year – instruction in BG 2500 EUR per year - instruction in EN  For non-EU nationals: 3200 EUR per year - instruction in BG 4000 EUR per year - instruction in EN	There is no limit to the number of PhD students to be admitted.
