

INFORMATION TO ALL PARTICIPANTS

I. UWW WRESTLING RULES: ADJUSTMENTS¹ DUE TO THE COVID-19 PANDEMIC

Background

Considering the current global pandemic (COVID-19) and the risks of contamination for all sports, including wrestling, and considering that one of the mission of United World Wrestling (“UWW”) is to provide the necessary conditions for athletes to compete safely in international competitions, the UWW Executive Committee and the Bureau have adopted the following, in force **as from 1 December 2020** until further notice:

Protocol

- **Before entering to the competition hall**, the temperature of all participants will be monitored.
- In case an Athlete shows a temperature **higher than 37.5°**, he/she will be **eliminated from the competition**.
- **Further investigation** and monitoring will be started by the Medical Team and **additional measures** can be taken.
- **First day of competition**: For the first day of competition, and because this athlete cannot be weighed-in, he/she will be ranked last without rank (cf. UWW International Wrestling Rules, Article 11, Weigh-in).
- **Second day of competition**: If this situation happens the second day of competition (Repechages, Finals), the elimination of an athlete will be considered as an **injury**. Therefore, he/she will be ranked based on the points earned on the first day (cf. UWW International Wrestling Rules, Article 56, Medical Service Interventions).
- **ONLY those athletes who pass** the temperature check will be allowed to the weigh-in.

Consequences for non-compliance

Any wrestler or other participant taking part in the competition is deemed to adhere and comply with all the measures (and their consequences) put in place to protect the health of all participants.

Any refusal to comply, tampering or dissimulating any information about the health of an athlete or other participant will sanctioned accordingly. UWW reserves the right to bring civil or criminal proceedings against any participant at fraud with the sanitary protocols in place.

¹ This document may be adjusted from time to time, subject to the evolution of the pandemic.

UNITED WORLD WRESTLING

II. UWW MEDICAL, PREVENTION & ANTI-DOPING COMMISSION: SCIENTIFIC RESEARCH CONDUCTED DURING INDIVIDUAL WORLD CUP

In coordination with the UWW Medical & Anti-doping Commission, a research will be conducted on all athletes consisting on body temperature monitoring at different times and using different equipment. This research will not be invasive for athletes and is necessary for the sport to better adjust the sanitary protocols in the future.

The research (and research team) will following the rules.

- the personal and health integrity of every athlete will be preserved;
- the research team shall observe the same sanitary protocol as required by the organizer (including without limitation: negative PCR test, protection mask and gloves, sanitization of all instruments used for the study);
- its implementation shall not interfere unnecessarily and in a disproportionate way with the athletes' preparation, competition as well as all competition obligations as per the UWW Wrestling rules and other applicable rules, including weigh-ins, training, warm-up, competition rounds/finals, medical treatment if applicable, medal ceremony and doping control;
- the collection of athletes' personal data, if applicable, will be reduced only to the necessary data to achieve the goals of the study and shall be kept strictly confidential; they will be collected and processed only by authorized people, namely the research team and the scientists selected for the analysis and conclusions of the study. The personal data will be destroyed once the study is concluded.
