Subject: Annual Medical Certificate & Pre-competition Medical Inspection

Dear President, Dear Colleagues,

As you have been informed in November 2012, from 1st January 2013, medical certificate established before each competition is not required anymore. It has been replaced by an Annual Medical Certificate which is valid for one year.

This certificate must be issued by a registered medical practitioner, stamped, signed, and shall certify that the athlete – after a complete check-up - does not show any medical contraindication for the practice of wrestling.

This certificate will be requested for the licence purchase (whether online, at the competition or to FILA), together with the passport copy. It shall be renewed each year.

No licence will be issued without this medical certificate.

However, the medical examination of the athlete 3 days before the competition is still compulsory, and will have to be reported on the personal athlete book at the medical control, before the weight-in.

We thank you for your attention to this matter, and remain,

Sincerely yours

Michel Dusson
FILA General Secretary

Nenad Lalovic
FILA President
